CPR Anesthesia is honored to be partnering with Kit Carson County Health Services District in January 2014 on a full time basis. CPR Anesthesia is an anesthesia specific management company based in Colorado serving rural facilities, surgery centers and large healthcare systems in-state and across the country. We are especially excited to be bringing 24/7 obstetrical anesthesia to the community. Additionally, by having a full time anesthesia provider available it will allow surgeons to perform more cases locally, allowing patients to receive their care closer to home rather than driving long distances for the same care.

The Team at CPR Anesthesia has gained an impeccable reputation in the anesthesia industry for providing safe and reliable service since our inception in 2002. Over the years we have grown through referral-based recruiting and offering positive integrity based working relationships with groups, providers, facilities and patients. Our team brings over three decades of combined medical management and staffing with anesthesia specific knowledge.

CPR Anesthesia is large enough to serve Hospital Anesthesia department needs within the community, but not so large that we forget who makes us the success that we are. Our principle goal is to provide quality personal service to everyone we serve.

CPR Anesthesia has been partnering with hospitals and surgery centers across the country to optimize anesthesia departments where we are able to ensure innovative solutions, consistent quality certified professional anesthesia providers, accurate and efficient scheduling services as well as help the centers by maximizing anesthesia billings and helping control costs.

CPR Anesthesia is looking forward to new beginnings in 2014 for Kit Carson County Health Services District and we know that we will bring quality and consistency to the members of the community for many years to come.

We are excited to be a part of the growth opportunities this brings to the residents of Burlington and the Kit Carson County Health Services District and we look forward to many years of service to come!
